Basic information related with HP® universal toners ;

If your customer is sensitive and aim to best possible result please suggest to use specifically formulated toners for target printer or suggest to use our flagship "STAR3 SERIES" none of any universal toner at the market could reach same properties with specifically for target printer formulated toners or STAR3 quality

HP UNIVERSAL B -TDH67 is being widely using because of the new HP® machines mostly similar with PRO series;

If your customer could be able to use for old machines like 1010-1320-4000 etc.. separate formula

like HP® Star 3 - TDHSTAR3 or TDH 90 ;HP UNIVERSAL B -TDH67 is flagship for new models.

HP UNIVERSAL U toner is our second quality toner which suggested to use against Asian toners excluding Japanese

If your customer is using usually recharge non-virgin cartridges or recharge %100 new Chinese cartridges and not change the components ; it is better to suggest them to use HP UNIVERSAL NC (TDHNC)
